DATA PROCESSING DIGEST is a monthly information service for computer professionals and corporate management, consisting of digests of appropriate articles selected from a continuously monitored range of computer, business, industrial, and professional publications. Staff reviewers: S. Lawrence, J. Van Speybroeck. Editor: M. Milligan. Publisher: Gisela Ilse Wermke. Subscription Manager: Kim Laan.

DATA PROCESSING DIGEST is published by Data Processing Digest, Inc., P.O. Box 1249, Los Angeles, CA 90078, USA. Tel./Fax: (213) 851-3156. Business Manager: Gisela Ilse Wermke.

**SUBSCRIPTION RATES:** U.S., Canada, Mexico: 1 yr. \$180. All other countries: 1 yr. \$195. Single copies, current issue: \$15.00 each. Single copies, back issues: \$10.00 each. All payments in U.S. dollars. Inquire about rates for multiple subscriptions. Order from Data Processing Digest, PO Box 1429, Los Angeles, CA 90078, USA.

**REPRINTS:** Data Processing Digest does not furnish reprints of original articles from which digests are derived. Write to the original publisher as listed in DPD's Reference listings.

**Photocopying of individual digests or entire issues of Data Processing Digest is prohibited,** except under the following procedure: Authorization to photocopy items for internal or personal use, or internal or personal use of specific clients, is granted by Data Processing Digest, provided written notice is given and the appropriate fee is paid directly to Copyright Clearance Center, 222 Rosewood Dr., Danvers, MA 01923, USA.

**Microfilm:** A microfilm version of Data Processing Digest is available from University Microfilm International, 300 N. Zeeb Rd., Ann Arbor MI 48106, USA.

## 1994 ANNUAL SUPPLEMENT

## INDEX AND REFERENCE LIST

<b>Title Index .....</b>	<b>1</b>	<b>Subject Index .....</b>	<b>7</b>
<b>Author Index .....</b>	<b>5</b>	<b>References .....</b>	<b>10</b>

---

**INDEX**

---

This is the annual index for DATA PROCESSING DIGEST for the year 1994, Vol. 40, Nos. 1-12. The index is divided into three sections: the list of titles as they appeared in the Digest, a list of authors, and a subject index. All articles have at least one subject citation.

Italicized titles are books, periodicals or reports. The numbers following the entries indicate issue and pages in which the item is found. The number preceding the hyphen is the issue; the numbers following the hyphen are the pages.

**TITLE**

Achieving Higher SEI Levels, 10-3  
 Advancing Democracy With a Wireless LAN, 7-21  
 The Age Of Wireless, 11-16  
 The Airlines, the Information Highway, and IT: Editor's Perspective, 2-14  
 American Express Claims Re-engineering Saves \$1.8B, 11-7  
 And Now, Introducing the Data Warehouse..., 12-4  
 Annual Compliance Agreement Signatures, 9-15  
 Anti-Clipper Internet Petition Gaining Momentum, Signatures, 9-8  
 AnyPlace Lets Remote Users Access Desktop Files, 12-20  
 Applications-Based Methodologies—Development By Application Domain, 10-10  
 Architectural Digress, 6-3  
 Are You Ready For Client/Server?, 6-10

Are You Ready To Support Telecommuters?, 11-3  
 The Art Of Software Design, 4-8  
 As Easy As ABC?, 8-16  
 Auditing For Database Integrity, 10-14  
 Automated Disaster Recovery Plan Auditing: Prospects For Using Expert Systems To Evaluate Disaster Recovery Plans, 4-11  
 Automatic Database Generation By Novice End-Users Using English Sentences, 6-27  
 Automation In a Client/Server Environment, 5-23  
 Bank Looks For Dividends From Conversion, 12-3  
 Benchmarking Data Processing Installations, 7-9  
 Benchmarking On Empty, 2-5  
 Best Face Forward: Re-engineering the Workplace (Customer Service), 8-7  
 The Best In Client/Server Computing, 5-21

Blue Skies In Networking: Reports From National Net '94, 7-22  
 Build Links To Multiple Databases, 4-14  
 Building a Data Warehouse, 5-11  
 Button Up Your LAN Security, 4-16  
 Can Programmers Commit Malpractice?, 10-3  
 Can Suites Fill Groupware Needs?, 3-11  
 Can You Orchestrate Client/Server Computing?, 10-17  
 Can Windows NT Coexist With UNIX?, 1-21  
 Canadian System Moves South, 11-14  
 CASE: Not a Joke, Now a Threat, 12-16  
 Case Studies Of Software-Process-Improvement Measurement, 11-9  
 Caught In the Middle, 10-12  
 Certification For Computer Security Pros Closer to Reality With "Unified Taxonomy," 4-12

## 2 DATA PROCESSING DIGEST 12/94

- Changing Attitudes Help Shape HR Systems, 5-12
- Changing Courses, 2-18
- The Cheap, Easy Way To Harness Imaging's Power, 4-15

## REFERENCES

The staff of Data Processing Digest regularly monitors a wide variety of computer-related and general business, educational, and scientific periodicals for appropriate articles to digest each month. The emphasis changes as the industry changes, the list varying from year to year and even from month to month, as new periodicals appear and others cease publication or change their editorial direction.

In the monthly issues, only the periodicals refer-

enced in that issue are listed. All addresses which do not include a country are located in the United States.

If you wish to obtain a copy of the complete original article digested in DPD, please request it from the publisher of the originating periodical. Do not write to Data Processing Digest, as we do not copy or reprint, and your request will be delayed. Books should be ordered from their publishers or from a local technical book store.
